## Global leader in Biosecurity and Food Safety

Kersia is a global leader in biosecurity and food safety solutions, serving the food industry, farm, food service, healthcare, and industrial sectors. Our mission is to provide partners and clients with the most innovative solutions to ensure food safety and community hygiene.

Operating in over 120 countries with a strong presence across Europe, the Americas, and Asia, we combine local expertise with global reach. Our portfolio spans the entire food chain from farm to fork ensuring the highest hygiene standards at every stage. Kersia's comprehensive range of cleaning, disinfection, and monitoring solutions is trusted by professionals in food processing, hospitality, catering, and facility management. With an unwavering commitment to safety and sustainability, Kersia invests heavily in R&D to develop next-generation products that meet the growing challenges of food safety, antimicrobial resistance, and environmental responsibility.

## Our Values

**Transparency** - To believe food is safe, consumers demand total transparency. We build long-term relationships by being open, ethical and fair. In a field confronted by sanitary and compliance issues, people trust us since we are true to our word.

**Sharing** - Open culture is the secret to progress. We learn and progress from the experience of customers, colleagues and partners. Honest communication amongst people with different experiences helps us develop new solutions and make a difference.

**Proficiency** - Biosecurity needs an integrated approach to analyse and manage risks. We eagerly engage our clients to identify issues and focus on their needs to get it right. We deliver reliable results and comprehensive performance by mobilizing the best of our skills and technical talent.

**Foresight** - Food safety is challenged everyday by new and often unpredictable issues. We constantly anticipate transformational change. We think "outside the box" when confronted with new challenges. It is in our nature to innovate and to approach our work with fresh but sustainable options.

# Sales & Service

## Service Offering, Expertise and Knowledge

Our experienced sales force comprises a diverse and talented team made up of high-level sales & technical experts. Always ready to offer solutions and services to help client's keep their environments clean and safe, operate efficiently and achieve sustainability goals.
