

Bean to Cup Machine

Operator to wear PVC or disposable apron and gloves when cleaning the machine.
Ensure electrics do not get wet during cleaning – cloths to be well wrung out.

DAILY

1

Insert user card into machine.
Select “**Intermediate Clean**”.

2

Follow the machine instructions, namely:
Empty the coffee **waste drawer**, **clean** in **M1** Cleaning Detergent solution, dry and then replace.
Remove the **milk container** and place in the fridge.
Insert 1x **Combi cleaning tablet** into the **cleaning container** and **insert** the cleaning **container into** the **machine**.
Insert 1x **Combi cleaning tablet** in the **coffee chamber** (flap in front of coffee hopper).
The machine will carry out the self-cleaning routine.
Please note hot water and steam will be dispensed from the coffee outlet head during the process.

3

Clean the **fridge** compartment, **waste** compartment, **exterior** of machine and **drip tray** with **M1** Cleaning Detergent solution **followed** by **M2** Sanitiser solution.
Pour approximately 1 litre of **M1** Cleaning Detergent solution **down** the **drip tray** to clean the drain.

WEEKLY

1

After daily procedure **select** “**intermediate clean**” and then select “**Clean Milk**”.
Put **Descaler into cleaning container**, insert cleaning container into the machine.
The machine will carry out the self-cleaning routine.
Please note hot water and steam will be dispensed from the coffee outlet head during the process.
