

DrainWatch is a durable and reliable dosing system suitable for indoor and outdoor applications that require the delivery of a single chemical at timed intervals.

Available as a mains or battery operated system, DrainWatch is commonly used for drain and grease trap maintenance and other purposes such as water treatment applications.

Key Features

- Rated IP65 for **indoor and outdoor use** in tough industrial environments
- Long-life premium motor for extended running life
- **Multi-lingual** programming with quick access review of events from one single screen
- LCD **digital interface with character display** and backlight for ease-of-use
- Optional access code protection to prevent unauthorised use
- **Easily serviced** from the front with compression connectors to facilitate quick tube changes
- Efficient and **fast installation** with mounting bracket and spirit level
- Low battery indicator as standard for battery models
- On/Off LED indicator

Mains Operated
DrainWatch

A space-saving, modern system designed with quick installation and intuitive programming in mind.

DrainWatch is controlled by a real-time clock with up to **20 programmable events per day** which can occur any day of the week.

Battery Operated DrainWatch

Rated IP65, this battery operated system offers great flexibility as it can be installed outdoors or in any setting where power outlets are not readily accessible. Additionally, the modular design allows for the battery pack to be mounted on the left or right side of the unit making it the ideal solution for tight-fitting installations.

DrainWatch runs on 4 x D Cell batteries with a built-in low battery light indicator that alerts users when the batteries need to be replaced.

Battery Operated DrainWatch

Why choose DrainWatch?

DrainWatch is one of the most robust, dosing systems available on the market. A premium product without the added cost, DrainWatch has been designed with high quality, UL approved polypropylene plastic. The front cover offers enhanced durability with protective corner bumpers and a tough rubber control panel.

As with all Brightwell Dispensers' products, design is paramount. The modern, contemporary styling not only offers cleaning and aesthetic benefits to end-users, but it also provides a range of practical advantages for installers in terms of simple set-up and flexible programming and mounting options.
