

DESCRIPTION

M3 Oven Cleaner is a ready to use foaming caustic detergent specially formulated for cleaning ovens within the Customer Café and Raw Poultry areas. M3 Oven Cleaner provides effective removal of heavy protein, fat and carbonised deposit build up in ovens used for cooking foodstuffs.

USE INSTRUCTIONS

M3 Oven Cleaner is supplied ready to use in a trigger spray bottle for direct application. Where there are particularly heavy deposits, agitation with a green pad may be required, ensure that appropriate PPE is worn. The detergent should be applied to warm ovens (maximum of 40°C) and be left on for at least 20 minutes prior to rinsing with potable water. When rinsing with water, ensure that the drain hole is clear.

BENEFITS

- Odourless gel allows long contact time.

TECHNICAL DATA

| | |
|---------------------------|---|
| Appearance | Clear colourless gel |
| Odour | Odourless |
| Foam | Clinging foam |
| Specific Gravity at 20°C | 1.065 |
| pH (neat at 20°C) | 12.5 – 13.5 |
| Mercury ¹ | 0.0082 mg/L |
| Cadmium | 0.0035 mg/L |
| Storage Temperature Range | -5°C to +40°C |
| Shelf Life | Minimum of 2 years under normal conditions |
| Holchem Classification |  |

¹ Note: Holchem's policy is to use Mercury free caustic.

PRODUCT COMPATIBILITY

It is safe for use on all common materials of construction, however prolonged contact with Copper, Zinc, Brass, Nickel and Chrome should be avoided. Surfaces containing these metals should not be left soaking in the solution for more than 30 minutes.

BIODEGRADABILITY

The surfactant(s) used in this preparation complies (comply) with the biodegradability criteria as laid down in the European Detergents Regulation No 648/2004. Not expected to Bioaccumulate.

TEST METHODS

This product is applied neat and as such there is no test method for this product.
