

# Zummo Orange Juicer

Operator to wear PVC or disposable apron and gloves when cleaning the machine. Ensure electrics do not get wet during cleaning - cloths to be well wrung out. Take care with blade.

## DAILY

1

Ensure the **machine is stopped** by using the programmer “StoP button, this means that the machine will stop in such a way to ensure proper cleaning. Isolate the machine.  
**Remove the front cover** by releasing it from the side covers.  
**Remove the side covers** by pulling gently upwards.

2

**Remove the filter** tray or the tank with its filter to gain access to the squeezer tray fixing nuts.  
**Unscrew all securing nuts** holding the squeezer tray and blade and cups nuts.  
Pull the tray, blade and **cups out** horizontally, ensure all items are removed.

3

**Unscrew the balls** inside the squeezer tray and remove.  
**Remove** the washer that is underneath all the balls

4

**Remove** the external **fruit holding basket** by turning it gently.  
**Remove the hopper fruit classifier** by unscrewing the nut located on the basket and then pulling it up.  
**Remove the lower fruit classifier** by pulling it up and off the holding shaft.  
**Clean all removed items** with **M1 Cleaning Detergent** solution **followed by M2 Sanitiser** solution. Allow to air dry.  
**Clean all machine body surfaces** with **M1 Cleaning Detergent** **follow** by **M2 Sanitiser** solution.  
Allow to air dry.  
Replace all removed parts
