

# Your Milk Matters

Don't let your wash routine  
be the weak link

When the pressure's on, good hygiene pays off, Kersia are here to help. We know that every milking matters and our team of experts are here to help you make it count.

## How Kersia Can Support Your Farm

Proven products, from parlour wash chemicals and teat dips to biosecurity and animal health

Expert advice and training for your team

Targeted hygiene routines, tailored to your system

Practical on-farm support, troubleshooting problems and maximising milk cheques

# Kersia's Parlour Hygiene Solutions

At Kersia, we understand the unique challenges dairy farmers face, and we offer more than just hygiene products, we offer solutions to support your farm's success.

Key services include:

1. **Hygiene programmes**  
Ensure your milking parlour meets the highest hygiene standards, preventing contamination and ensuring premium milk quality.
2. **Technical support and farm solutions**  
Kersia's team of experts work directly with you to solve on-farm challenges, helping you optimise processes and reduce risks.
3. **Compliance assistance**  
Navigate the complexities of compliance with our technical guidance, ensuring you meet the standards for top-tier milk pricing.

## Take the guesswork out of dairy hygiene

Speak to your hygiene supplier to arrange an on-farm troubleshooting visit from Kersia's dairy experts or scan the QR code to contact the Kersia team direct.
