

DISTILLERY HYGIENE SOLUTIONS

Precision Cleaning & Disinfection

- ✓ Acids for scale control and boosting cleaning performance
- ✓ Defoamers for control of foam
- ✓ Caustics for Open Plant Cleaning and CIP
- ✓ Silicated caustics for copper and soft metals
- ✓ Disinfectants for consistent quality and flavour stability

Maintaining the purity, consistency, and safety of spirits production demands robust, reliable hygiene solutions.

Kersia delivers a specialised portfolio designed to protect fermentation, safeguard equipment integrity, and support high quality consistent spirits output from grain to glass.
